

How it works

1. After getting injured at work, report your injury to your supervisor.
2. If you need transportation to a medical center and want to use U.S. HealthWorks or Concentra, you or your supervisor will call the local U.S. HealthWorks or Concentra clinic to request transportation. When calling, you will need to provide:
 - Name
 - Your cell phone number
 - Pick-up location
3. You will receive an SMS text message confirming you're getting a ride.
4. The driver will arrive at the scheduled pick-up location to take you to the nearest U.S. HealthWorks or Concentra medical center to receive medical care.
5. The medical center staff will arrange your return transportation.

How you benefit

- > **Fast access to expert care.**
We'll take you right to the medical center, making it easy to get care right away after you're injured.
- > **Convenience.**
We provide curbside pick-up and drop-off, no smartphone app or tip required.
- > **Reduced time away from work.**
We take you to and from your appointment, with minimal wait time. No time spent on arranging transportation, and your time is only spent at the appointment.
- > **Safety and privacy.**
Rides are actively monitored and both employees and drivers have masked numbers for added protection and to prevent arrangement of transportation outside of the Concentra rides.
- > **Pleasant experience.**
Vetted drivers deliver a hassle-free experience.

➤ Ready to ride?

Contact your local Concentra medical center. We'll be happy to arrange transportation for you or your staff member's initial injury visit. **AT NO COST.**
